**CUSTOMIZED  
FLEXIBLE LEARNING  
FOR TODAY'S  
STUDENT**

# LEOPARD BLENDED

Digital Academy

Louisville City Schools puts students in the driver's seat of their education with online courses that offer students the flexibility they need to meet athletic, work, or family obligations. And with a wide selection of electives to choose from, students can explore areas of interest and courses that align to their goals for college or career.

The tuition-free Leopard Digital Academy provides many types of curriculums including general education, advanced and specialized courses, special education, and credit-recovery options. Students may also attend study sessions, receive tutoring, support, and participate in extracurricular activities.

Support services and onsite instruction support will be offered in a teacher-supervised Digital Lab Classroom at Louisville High School. Students who are able and willing to work from home are provided all computer equipment, and supplemental materials at no cost.

## BLENDED LEARNING

Blended learning is a formal education program in which a student learns, at least in part, through online delivery of content and instruction with some element of student control over time, place, path, and pace and, at least in part, at a supervised brick-and-mortar location away from home.

## PROGRAM BENEFITS

- Monitoring and assistance (in person when necessary) provided by highly qualified Louisville High School teachers
- Access to a full-time intervention specialist (if needed/required due to disabilities)
- Supervised, private computer lab setting on the Louisville High School campus
- Ability to complete online assignments at home
- Individual attention and tutoring on a regular basis
- Participate in all Louisville City Schools' extracurricular activities, including athletics, clubs, band, choir, theater, etc.
- Graduate with a Louisville High School diploma

## CURRICULUM

Edgenuity, one of the leading online learning course providers, offers addition benefits that include:

- Engaging, standards-aligned curriculum with interactive, media rich instruction
- Highly qualified virtual teachers who communicate regularly with students
- On demand tutoring so students get the help they need when they need it
